

OPENING

This is an agreement between the Licensee and Dinamo GmbH (hereafter “Dinamo”). By purchasing, or downloading, or installing, or using, or otherwise handling digital typeface software (hereafter “font(s)”) by Dinamo, the Licensee automatically accepts the terms of this agreement and acknowledges understanding and complying with its terms.

Acquiring a license from Dinamo grants the Licensee the right to use the specified font(s) on a specified number of work stations, and/or in a specified number of applications, used or visited by a specified number of visitors or users. The Licensee is not purchasing the copyright to the design or any other part of the fonts, but the right to use the font(s) as specified in this agreement, according to the Licensee’s specified license type(s). All uses not specifically licensed require a separate license.

LICENSE TYPES

2.1 WEB LICENSE

- The number of websites onto which the Licensee may install the font(s), and the number of visitors these website(s) may serve, is dependent on the license purchased and referenced on the Licensee’s invoice. In the case of an increase in visitor numbers, the license must be updated on an annual basis. In the case of the closure of a website, the font(s) and/or the license to use the fonts cannot be transferred.
- The font(s) for a web license are provided in WOFF format and must be self-hosted on the Licensee’s server(s).
- Web-fonts have to be acquired as such and cannot be generated from print-fonts or other files. They cannot be used for any purpose other than that defined by the license.

2.2 PRINT LICENSE

- The Print License is calculated based on the total size of the company which may install the font(s). The company size is referenced on the Licensee’s invoice. If the size of the company increases, the license must be updated. In the case of the closure or merging of business entities, the license and the fonts cannot be transferred.
- All licensed work-stations must legally belong to one business entity. If the business entity employs any third parties or self-employed or temporarily-employed freelancers, a separate license is necessary for those parties.
- The font(s) are provided in OTF format and may be used offline only. The Licensee can make security copies of the font(s) as long as they remain inaccessible to external parties.
- When embedded in production files, a copy of the font(s) may be shared with prepress and printing entities. If any of these external entities manipulate texts using Dinamo font(s), an individual license is necessary for those parties.
- The font(s) may be embedded into public PDF files as vector outlines.
- Print-font(s) must not be used to generate web-font(s).

2.3 APP/EBOOK LICENSE

- The number of App/eBook files into which the Licensee may embed the font(s), and the number of users/readers these App/eBook files may serve, depends on the license purchased and referenced on the Licensee’s invoice. In the case of an increase in users/readers, the license must be updated. In the case of the termination of a title, the font(s) and the license cannot be transferred.
- The fonts(s) are provided in OTF format and may be embedded into the App/eBook file(s).

2.4 BROADCASTING/STREAMING LICENSE

- This license allows for any kind of broadcasting with the typeface (streaming, type on screens, advertising, video clips, tv or cinema).
- The number of film or episode titles in which the Licensee may use the font(s), the geographic territory in which these film or episode titles may be streamed or broadcast, the duration for which these film or episode titles may be streamed or broadcast, and the number of viewers who may receive or stream these film or episode titles, is dependent on the license purchased and referenced on the Licensee’s invoice. In the case of territory extension or additional film or episode titles, the license has to be updated. A broadcasting/streaming license and the fonts cannot be transferred.
- Broadcasting fonts are provided in OTF format and may be used offline only.
